Here is how user found it:

<psilyntl> I was looking for the last pgp encrypted message from  
cicada (you know  
the old one linked from twitter that said to verify with pgp)

<psilyntl> searched for

<psilyntl> searched for '7A35090F' on pastebin, sorted by date  
and there it was...

I thought it was the same, validated it, realized that WASN'T  
the same, realized  
the pastebin date and brotherbin caught me posting it in a  
discord.

<psilyntl> I posted it in discord, here, then in defango's  
youtube chat.
